

epMotion® 96 and 96xl: iPod® Compatibility List

epMotion 96 and 96xl should be operated via iPod touch®. Many model generations of iPod touch exist, but only a few can be charged in the epMotion 96 and 96xl docking station. This document shows the connection requirements and iPod touch models. Operation via iPhone® or iPad® is possible without charging the device in the docking station.

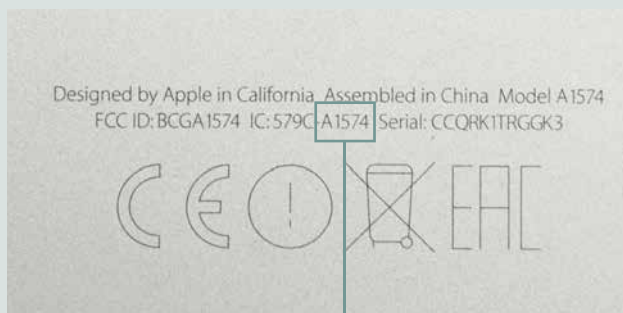

Apple® iPod touch needs a lightning connection

Lightning connector and cable

Apple iPod touch generation and type numbers

Generation 5

- > A1509
- > A1421
